#GoalparaCares INITIATIVE -

Several small donors contributed food and health kits for the needy. Students volunteered in large numbers to reach out to vulnerable groups such as the elderly to ensure that they have access to basic provisions during the lockdown period. A YouTube Channel called #GoalparaCares was also launched with modular, structured videos developed by teachers and shared on parent-teacher **WhatsApp groups**. **'Mission Tarang'** - a learn-from-home campaign, was launched for connecting teachers with officials and providing students with psychosocial counselling.
