

HIMACHAL PRADESH

- Inter-State movement is monitored through registration in the COVID e-pass software.

A portal was designed for busting COVID-related fake news where citizens can post relevant web links or content on the portal to determine their veracity, while maintaining their privacy. The portal requires its users to enter their mobile number and email address but does not reveal their identity to the fake news monitoring unit. The result of the content check is sent to the user via SMS.
